

SEO ON NO CURE NO PAY BASE.

PROBLEM.

Hi, as a webdevelopment company I get about 3 quote requests for SEO a week. I can't handle it on my own, as my knowledge isn't good enough. One project right now is very important, need to be done ASAP.

PROPOSAL.

Looking for someone that's willing to work on no cure no pay base. For each project keywords and phrases are selected by me (about 25), you get the list. After your work, you receive a monthly recurring fee for each keyword that ranks, and stays top 10 in Google!! You can imagine that this will generate a lot of income monthly, because you get multiple projects with multiple keywords...

REQUIRED:

- True SEO specialist, that can handle multiple projects a month, and has time to keep all projects he has done rank high ...That's where the monthly fee per keyword is for.
- Only contact me if you are willing to work in the proposed 'no cure no pay' construction.
- Only contact me if you have some really good references.

Thanks in advance,
Bas
